 Final result is that \$257.35 - 3 must be paid
 in order to place the goods in Lanerick Hall.
 They are all marked, & putting everything
 at as high a price as it will bear, the amount
 is smelted up on Edinburgh & Glasgow principles to

\$822.09. So the
 Paris box is to bring 822 dollars.
 If it brings half that sum it will do very
 well.

In addition to the above Calculation
 I now recollect a large square inkstone
 porcelain, beautifully painted & gilded which
 cost me, just after the Fair last year
 25 francs or 5 dollars. The price ^{here} ought
 to have been 60. Sell it for 12 dollars.
 or 18 if you can get it or whatever you can
 get.
